

NEW ICEBRIDGE COOLING CONTAINERS

New Icebridge Cooling Containers are designed for transporting Chilled food on return flights. The Containers are designed according to ATLAS Standard.

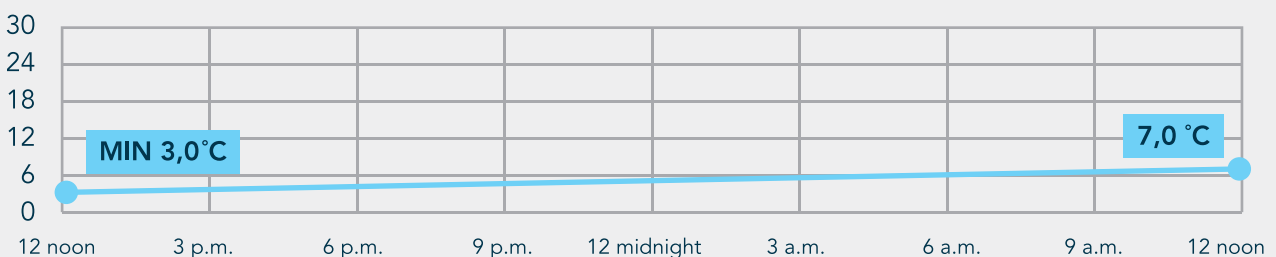

The Icebridge® Cooling Containers are designed mainly for fresh food items, but can also be used for frozen and hot food items. The product comes in two sizes and consists of three parts which lock together once placed into a standard trolley.

Fresh food items can be kept chilled between +1 – +7 °C for up to 23 hours with the reusable Icebridge Cooling Cassette. Preheated food items can be kept at +65 °C for up to four hours.

PRODUCT HIGHLIGHTS
