

ICEBRIDGE COOLING CASSETTE

Refreezable, reusable Cooling Cassette for chilling and freezing of food and beverages inside Icebridge boxes and Containers.

The Icebridge® Cooling Cassette fits into all Icebridge Cooling Chests and Containers, Wet Ice Boxes and Oven Insert Cases. Icebridge Cooling Cassettes are refreezable and reusable.

The Icebridge Cooling Cassette enables significant savings and stable cooling or freezing for any kind of food and beverages. Standard cassettes are available with different liquid cooling agents ranging from -3 °C to -19 °C.

PRODUCT HIGHLIGHTS

Works with all Cooling Containers, Icebridge Wet Ice Boxes, Oven Insert Cases and Cooling Chests.

Reduces or even eliminates use of dry ice in combination with Icebridge cooling boxes.

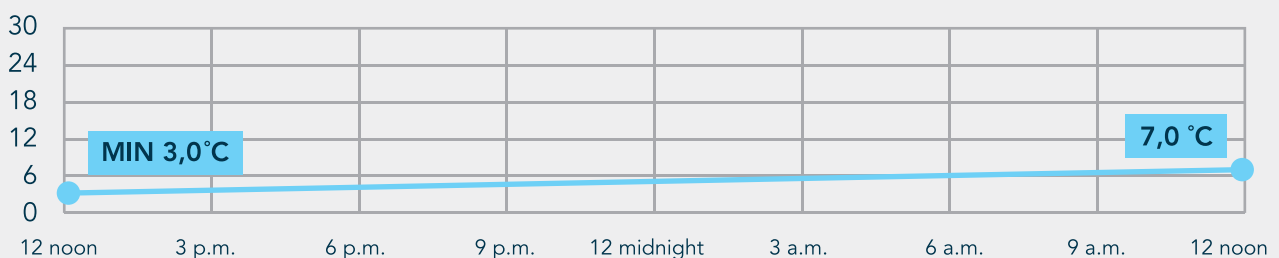

Freezing and chilling for up to 30 hours without dry ice or electricity.

Easy to handle and refreeze in freezers.

Cooling cassettes are food safe according to international standards.

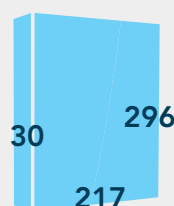

Washable in the catering tunnel washing machine.

TEMPERATURE (°C) DURING 24 HOURS

DIMENSIONS (L x W x H) AND WEIGHT

Cassette M
296 x 217 x 30 mm
Weight 1,6 kg*

*Actual weight of a cassette depends on the cooling agent used in a cassette for specific temperature. In general, the lower the temperature, the heavier is the cassette.
